

Idea Board from Brain Storming

Group Budgeting Tool:
An app that allows friends to set budgets, track expenses in real-time, and split costs easily.

Customized Itinerary Planner: A platform where group members can vote on destinations and activities, creating a balanced itinerary based on everyone's preferences.

Flexible Booking Options: A service that offers flexible cancellations, shared accommodations, and "no-penalty" change options for group travel.

Friend Compatibility Survey: A pre-trip survey that determines compatibility and travel styles to avoid conflicts during the holiday.

Communication & Coordination App: A centralized app with built-in chat, reminders, and polling to streamline group communication and reduce misunderstandings.

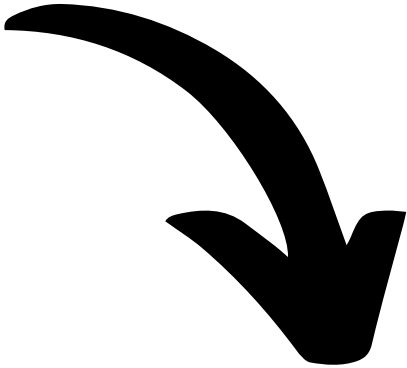

Preference Matching Algorithm: An AI-powered tool to match travel preferences (e.g., adventure vs. relaxation) among friends to recommend suitable activities and destinations.

Emergency Help & Support: Integration of a "Travel SOS" feature for addressing unexpected changes, emergencies, or travel disruptions in real-time.

Collaborative Packing Checklist: A tool that helps friends coordinate and track items needed for the trip to ensure everyone contributes.

Conflict Mediation Guide: A guide or app offering conflict resolution techniques, tips, and role-playing scenarios to help diffuse potential arguments during holidays.

Shared Task Management Board: An app that assigns tasks like booking accommodations, preparing meals, etc., to different group members.
